

We are proposing a change in your area

Kia ora,

We would like to inform you about a proposed change in your neighbourhood.

Proposal:

Reference	TR63-26 Thorndon Quay, Pipitea – Amendment of Legal Descriptions
Location – where we propose to make the change	• Thorndon Quay from Featherston St to the intersection with Tinakori Road. • Hutt Road from the intersection with Thorndon Quay and Tinakori Road to the Hutt Road Overbridge. • Featherston Street from Bunny Street to its intersection with Mulgrave Street. • Stout Street on the northern end at its intersection with Bunny Street and Featherston Street.
What we'd like to do	Traffic Resolution TR141-24 was approved by the Regulatory Processes Committee (RPC) on 14 November 2024 (link to TR found here: Regulatory Processes Committee 14 November 2024). Following the completion of the Thorndon Quay project, some discrepancies were identified in the legal descriptions associated with the approved resolution. This proposal seeks to amend TR141-24 to ensure the legal descriptions reflect the intended restrictions within the corridor, while also making minor adjustments to the parking restrictions in response to stakeholder feedback during implementation. The changes involve: • Amend the legal description of the Time Limited Parking, Class Restricted Parking, Metered Parking, Metered Mobility Parking, No Stopping Lines and Cycleway. • The west (north bound) afternoon peak Bus Lane on Thorndon Quay and Hutt Road hasn't been implemented, references to this Bus Lane have been removed from the legal descriptions. The removal of the Hutt Road afternoon peak, northbound Bus Lane was withdrawn and fully cancelled through the Long-Term Plan to save costs in early 2024. The Council also endorsed delaying the operationalisation of the part-time northbound bus lane on Thorndon Quay to give local businesses time to adjust to the recent changes and to conduct further reviews while other major upgrades on Thorndon Quay (such as the bi-directional cycle path and the southbound Bus Lane were completed. The afternoon peak northbound Bus Lane can be reassessed and added back in a separate Traffic Resolution if Council decide to implement it at a later date. • Relocate the Motorcycle Parking 'At All Other Times' at 38 Thorndon Quay on the east side (Capital Gateway) and relocate it to the west side

of the road. Increase length by 1m from 5m to 6m in length and restriction updated to 'At All Times'.

- **Relocate** Metered Parking P120 Mon to Fri, 8am-6pm, P180 Sat to Sun 8am-6pm near 49 Thorndon Quay on the west side (just south of Pipitea Marae) and relocate to the west side of the road near 38 Thorndon Quay (Capital Gateway).
- **Move** P10 Loading Zone and Mobility Park north by 1m at 38 Thorndon Quay on the east (Capital Gateway) to accommodate the relocation of the Motorcycle Parking and replacement with 1 x Metered Parking space P120 Mon to Fri, 8am-6pm, P180 Sat to Sun 8am-6pm.
- **Remove** the P10 Loading Zone to the north of the entrance to Capital Gateway (opposite 89 Thorndon Quay on the east side of Thorndon Quay). **Convert** to No Stopping Lines in this location to improve visibility between drivers, cyclists and pedestrians.
- **Remove** the P10 Loading Zone at 103 Thorndon Quay and **convert** to 2x P30 Monday to Friday 8am – 6pm Time Limited parking spaces and P180 Saturday and Sunday 8am – 6pm Metered Parking spaces to support businesses by increasing the time limit.
- **Remove** 2x Metered Parking spaces on the east side of the Thorndon Quay to the south of the intersection with Davis St and **convert** to No Stopping Lines to improve the visibility of vehicles exiting Davis St onto Thorndon Quay.
- **Relocate** 1x Metered Mobility Parking space and 1 x Metered Parking space opposite 268 Thorndon Quay on the east side and **relocate** them 39.5 m further north to improve sightlines for vehicles exiting an existing loading dock. This will make space for the nearby loading zone to be relocated further south to the existing Metered Mobility parking space and Metered Parking space improving sightlines to the north from the adjacent loading dock.
- **Remove** the existing P10 Loading Zone opposite 278 Thorndon Quay on the **east** side and relocate it to the south by 39.5m. **Convert** the existing P10 Loading Zone to 1x metered car park and 1 x Metered Mobility Park. Overall length of Loading Zone will reduce from 16.4m to 13.6m.
- **Remove 1x** Metered Mobility Parking space and **convert** to 1x Metered Parking Space opposite 278 Thorndon Quay on the **west** side. This Metered Mobility parking space does not service any nearby businesses as there are no businesses on the west side of the road in this location. There is a Metered Mobility Park directly opposite on the east side of the road outside businesses. This change is in response to nearby business observations for how the parking is working and what is

We are proposing a change in your area

	required. An adjacent business also has their own designated Mobility parking space on their land, accessible to customers.
Why we are proposing the change	• In response to feedback from stakeholder engagement during the construction phase of the project. • To reflect the western side (north bound) Bus Lane not being implemented on Thorndon Quay and Hutt Road. • To improve accessibility along the route particularly for people who use loading zone and P30 and P10 parking. • To formalise the existing restrictions to ensure the legal descriptions are accurate. • To improve visibility between drivers, pedestrians and cyclists in some locations.
Impact	Improvements • Improved levels of service for bus users including improved access, journey times and reliability. Provides sufficient capacity for growth in public transport. • Improved levels of service and reduces the safety risk for people walking and cycling along and across Thorndon Quay and Hutt Road. • Improves sight lines to the road carriageway from 1 x driveway and 1 x side road onto Thorndon Quay • Improves loading logistics for businesses and their suppliers and/or customers • Responds to business feedback on some operational improvements to improve both safety and logistics within the corridor Net Parking Impact • Remove 1x P10 Loading Zone and convert to No Stopping Lines opposite 89 Thorndon Quay, to the north of Capital Gateway on the east side. • Remove 1x P10 Loading Zone and convert into 2x P30 Monday to Friday 8am – 6pm Time Limited parking spaces and P180 Saturday to Sunday 8am – 6pm Metered Parking spaces in front of 103 Thorndon Quay on the west side. • Remove 2x Metered Parking spaces and convert to No Stopping Lines on Thorndon Quay, to the south of the intersection with Davis Street on the east side. • Remove 1x Metered Mobility parking space and 1 x Metered Parking space and relocate 39.5 m further north to improve sightlines for vehicles exiting the privately owned loading dock. This will make space for the existing loading zone further north to be relocated to these 2 parking spaces (noted in bullet point below). • Remove the existing P10 Loading Zone and relocate it to the south by 39.5m. Convert the existing P10 Loading Zone to 1x metered car park and 1x Metered Mobility Park. Overall length of Loading Zone will reduce from 16.4m to 13.6m.

We are proposing a change in your area

	- Remove 1x Metered Mobility Parking space and convert to 1x Metered Parking Space opposite 278 Thorndon Quay on the west side. Pedestrian impact - Improved visibility between pedestrians and drivers at the northern driveway into Capital Gateway through removing the Loading Zone and replacing with No Stopping Lines. - Respond to business and customer needs by extending the period vehicles can park near 103 Thorndon Quay. - Improve the visibility for vehicles exiting the lane behind VTNZ onto Thorndon Quay near the intersection with Davis Street.
How this relates to the parking policy	- Support safe movement – facilitate the safe and efficient movement of people and goods by focusing on people moving along transport corridors rather than people parking or storing stationary vehicles. - Support business wellbeing – ensure parking management and pricing controls support economic activity in the central city, suburban centres and mobile trades and services.
Additional Information	- Average daily traffic count – 8,189 - Annual parking revenue impact - Loss of approx.\$4,394.52 - \$4,405.55 per annum due to removal of metered parking spaces. - An electronic copy of the report will be available on the Council's website from 9.00am, 19th October 2026 at https://www.letstalk.wellington.govt.nz/
Privacy	- Your privacy is important to us. Please DO NOT add specific personal details to your feedback (i.e. full name, address, etc) - What we do with your personal information: All submissions (including your first name but not contact details) are provided in their entirety to elected members and made available to the public on our website and at our office. Personal information (including contact details) will also be used for the administration of the consultation process including informing you of the outcome of the consultation. All information collected will be held by Wellington City Council, with submitters having the right to access and correct personal information. - For more information regarding our Privacy Statement please check our webpage: Privacy statement - Wellington City Council.
Feedback	If you would like to provide us with specific feedback, which will be added to the Traffic Resolution following consultation and made public in full, you can do so by filling out an online submission form, downloading a printable submission form on https://www.letstalk.wellington.govt.nz/ or emailing us at trfeedback@wcc.govt.nz. Please note if you are giving feedback the consultation period opens at 9.00 am 19 October 2026 and finishes at 5.00 pm 3 November 2026.
Next Steps	- Feedback collated by 4th November 2026. - The proposal will go to the Te Takere Regulatory Processes
