DESIGN RATIONALE

This thoughtfully crafted design combines exciting physical challenges, imaginative play opportunities, and accessible features, making it a must-have centrepiece for any community park in New Zealand.

Key Features and Highlights:

1. Multi-Tower Configuration:

- The towers are connected by a rope bridge making it easy to explore the whole structure without the need to get off the playground.
- Climbing features encourage exploration and imaginative play.
- A range of accessible entry points, ensuring inclusivity for children of varying abilities.

2. Physical Challenges:

- Spider Nets and Climbing Walls: To develop strength, coordination, and balance.
- Monkey Bars: Encourages upper body strength and cross-body coordination.
- Slide and Rope Bridge: Provide both fun and sensory-rich experiences, enhancing spatial awareness and proprioception.

3. Safety and Design Excellence:

- Complies with New Zealand safety standards
- Designed with robust materials to ensure durability and withstand the demands of a busy public playground.

Why It's Perfect for New Zealand Communities:

This playground reflects New Zealand culture with the Whare towers and natural colours. It will fit perfectly into the natural surroundings of the park.
