

Our work programme

For 2023/24 we plan to continue delivering the programme of work set out in the 2021-31 Long-Term Plan. Visit our website to see the full details of our projects: letstalk.wcc.nz/annual-plan-2023-24

Te Whanganui-a-Tara All of Wellington

Southern Landfill

- This year, we will finalise the design of the landfill extension, continue the resource consent application process and commence preliminary works in advance of construction commencing in 2024.

Frank Kitts Park Playground

- The playground is expected to be completed in November 2023.

Sludge minimisation project

Construction has been approved for the new Sludge Minimisation Facility. Work at the site at the southern end of Stewart Duff Dr is expected to be underway in mid-2023 and completed by 2026.

Te Atakura programme

- Continuing the conversion of the Council fleet to electric vehicles and the installation of public EV chargers.
- Continuing to run the Home Energy Saver Programme and starting the new business energy saver programme.

Let's Get Wellington Moving

- Golden Mile: Finalise the design and begin construction in late 2023.
- Thorndon Quay and Hutt Road: Finalise the design and construction begins on walking, cycling, bus priority and safety improvements including new Aotea Quay roundabout.

Te Ngākau Civic Square

- Council building demolition for the Civic Administration Building and Municipal Office Building.
- Town Hall earthquake strengthening continues.
- Te Matapihi Central Library rebuild continues.

What's happening in your area?

Paekawakawa/Southern General Ward

Paneke Pōneke - Bike network plan

We will complete the business cases and consultation for the Berhampore to Newtown transitional cycleways alongside other routes. Some physical works will then take place on these transitional projects throughout the year based on public feedback.

Wastewater Network Renewals - Newtown

The first portion of the programme to renew wastewater assets in Newtown will begin in 2023/24. Renewing them will reduce environmental risks, and occurrences of surface water contamination leading to public exposure to untreated wastewater discharging onto land and waterways.

Island Bay Town Centre

The public space upgrade has been designed in collaboration with a local working group. The project includes better places for people to gather, public seating, resurfacing, lighting upgrades, murals, planting and more space for local businesses to extend out into the public space. It will also integrate with the proposed cycleway and safety upgrade work. Detailed design will be completed in June 2023, with construction beginning August 2023 and expected to end early 2024.

Berhampore Town Centre

The public space upgrade to the Berhampore Town Centre has been developed with a public working group. The project is now moving into the detailed design phase. It will include tactical upgrades and minimal earthworks by creating better spaces for the community to gather, street art new planting and seating. Construction will be coordinated with the Paneke Pōneke Bike Network Plan project beginning in mid-2023 and complete in late 2023 (as phase 1 of the wider Newtown-Berhampore transitional cycleway and parking management implementation).

Former Workingmen's Bowling Club Newtown

We will engage with the community on the future of the site as an additional community facility in Newtown. This will be followed by design work and construction of the intended future use.
